TOPEKA, KANSAS

HERE IS MY PAGE OF Premiums and Special Offers ^{For} _{the} Whole Family!

Marbles for the Boys and Girls!

Free Roses, Bulbs, and Seeds for Father and Mother

BOYS!

A Box of 64 Dandy
Akro Agate
Marbles Free!

Look at these beautiful Marbles, boys! With a sack full in your pocket you'll have them all beat at school. And they are easy to win, too. I will send free marbles to every boy and girl who sends me an order for garden seeds, bulbs, or plants. See as many of your neighbors and relatives as you can, show them this catalogue and send in an order as big as possible for garden seeds, bulbs or plants of their own selection. With each dollars worth bought, I will include with the order one box of 64 beautiful Akro Marbles. Remember the marbles will be yours for getting up the order and delivering the seeds, bulbs or plants to them on their arrival to you. We pay all postage to get the package to you.

HERE'S ANOTHER OFFER FOR BOYS AND GIRLS

On this offer you send me no money. I trust you. Simply send your name and address and I will mail you 20 packets of my fine garden seeds, postpaid. Sell at 5c a packet to your neighbors and friends, return the \$1.00 to me and I will mail you a box of 64 Akro agate marbles, post paid.

SPECIAL OFFER FOR LADIES

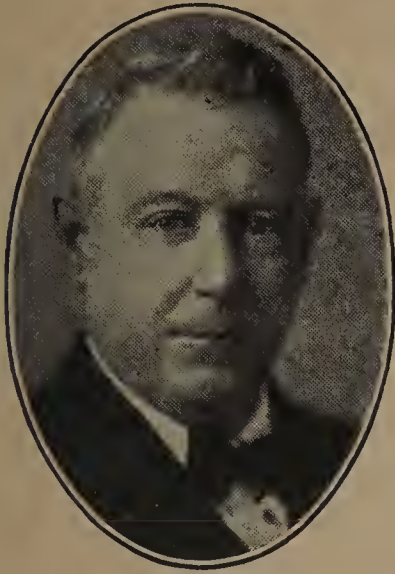

What is more beautiful and fragrant than a fresh blooming rose? I will give you FREE one regular 40c, 2 yr. old rose with each \$1.00 worth of my GARDEN seeds that you buy. Your choice of pink, red or yellow roses. Please state choice.

MEN—

Be sure to raise some of my new Longfellow Pop Corn and Early Kansas Watermelons. I will give ¼ lb. Longfellow Pop Corn with a \$1.00 order for Garden Seeds.

An Open Letter To My Thousands of Customers Scattered Over 14 States

HAYES SEED HOUSE

TOPEKA, KANSAS

JANUARY, 1937.

DEAR FRIENDS:

Do you know what you will ask yourself time and time again as you look through this new 1937 catalogue?

“How can Hayes sell at such low prices?”

That's what you will be wondering — and I won't blame you for my prices are low, considering the drouth through the seed producing sections of the United States.

But friends, I'll tell you how I can do it, even in a year like this when everything is going up and up.

Early last summer, before the drouth destroyed so many seed crops, I contracted large quantities of the finest seeds available. I anticipated the present scarcity and bought heavily. And now I am giving my customers the benefit of my fortunate purchases.

Look at my prices on fine Beans on page 7. And turn to page 11 and see the surprising low prices quoted on Sweet Corn. Take advantage of the Special premium offers on the opposite page and one page 26. This whole 1937 catalogue is chock full of real seed, plant and bulb bargains and you'll get the finest seeds you ever bought.

In fact, I guarantee that your order will be satisfactory or you may return it and I'll refund your money. Isn't that fair enough?

So go through these pages now and make up your order with the same confidence in me that thousands of others have had for the 38 years I have been in the seed business.

Yours truly,

HAYES SEED HOUSE.

A stylized, cursive handwritten signature of Gene Hayes. The signature is written in dark ink and features a large, sweeping flourish at the end.

MARKET GARDENERS: See Special Information on Page 5

Strawberry Plants

(State Inspected)

**SEND
US
YOUR
ORDER
TODAY**

Our plants are grown in Michigan, Wisconsin, Tennessee, Arkansas, Missouri and Kansas.

We have a very large amount of the very finest berry plants that you ever saw, and we are going to make the prices so very reasonable that any one having room in their garden can set out a bed. Our prices will be POST PAID to you.

Dr. Burrell, A cross of the Crescent and the Dunlap, a beautiful rich red color, large size, fine flavor and a heavy bearer.

Blakemore, This is an early berry and was developed by the United States Department of Agriculture. It resembles the Missionary in plant growth, foliage upright and glossy, berries large and dark red, fine flavor and good producer.

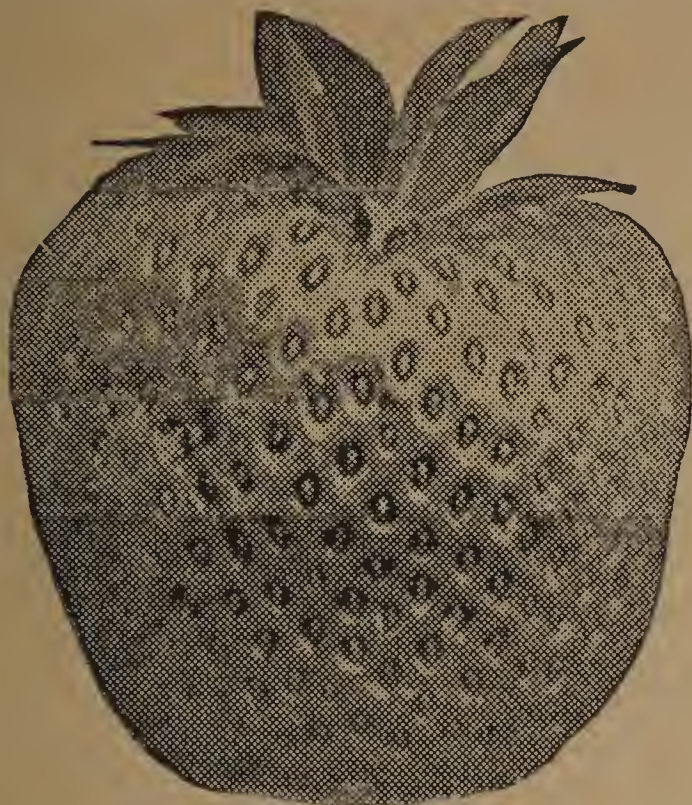

Missionary, This berry is a favorite in the south where large acreage is planted for shipping early berries to northern markets. It is very desirable for home use.

Aroma, A popular late variety, foliage deep green, berries a bright red and a wonderful flavor.

Dunlap, One of the grandest berries grown, does well in most locations, a fine table berry, good shipper and a heavy cropper.

Premier, By all means give this berry a trial. It is early and produces an abundance of fine large berries. It is classed as one of the frost-proof varieties.

(See Next Page)

STRAWBERRIES

Redgold, A mid-season berry, one of the finest flavored berries grown.

Big Joe, A mid-season berry which is becoming a favorite and should be given a trial in every berry patch.

PRICES ON BERRY PLANTS

50 plants ---35c	500 plants_ \$2.00
100 plants -- 50c	1,000 plants 4.00
200 plants -- 90c	5,000 plants 18.00

EVERBEARING STRAWBERRIES

Mastodon, a wonderful large berry.

Lucky Strike, a real berry.

Gem, an excellent producer.

100 plants \$1.00	500 plants \$4.50
1000 plants \$9.00	

TO OUR CUSTOMERS—On account of the dry season the past two years many strawberry fields were ruined and will be replaced. At the present time we have plenty of plants but we look for such a demand that we will not be able to fill the late orders. Our advice is for you to order now. We can ship same when you desire, but protect yourself by placing order now. Plants will please you on arrival or money will be cheerfully refunded.

MARKET GARDENER'S PRICE LIST

For more than 30 Years we have been mailing the MARKET GARDENERS and SEED BUYERS our SEED ANNUAL. The seeds herein quoted embrace all the best varieties, and is issued to meet the needs of the PLANTERS in every market gardening section. East, West, North and South our position as MARKET GARDENERS SEEDSMAN is becoming larger each succeeding season, and now embraces more than 25,000 Planters through the country.

We have a good supply of nearly everything in the seed line and the SEEDS, BULBS and PLANTS, we are offering you are of the highest quality and germination. True to Name and Sure to Grow. Let us know what you are in need of, there are many items we can make you very low prices on.

ALL PRICES ON GARDEN SEEDS ARE POST PAID BY US

Express and freight rates are much lower than they have been, and this will apply to truck lines.

Notice — The prices on many varieties of seeds are higher than they have been in many years. The extreme drouth throughout the country, ruined many varieties and our prices are subject to being sold out later on. SO ORDER AT ONCE.

Semesan Bel for Potatoes, 1 Lb. tin, \$1.75. Send for Free lists on how to use it.

ARTICHOKES

JERUSALEM ARTICHOKE

The New Large Jerusalem variety produces from 300 to 600 bushels per acre. An excellent food for hogs, cattle, sheep and milch cows. For milk production they are equal to if not superior to bran. But their greatest value is food for hogs. Even the labor of feeding is avoided, as the hogs will help themselves if allowed to do so. We consider them the cheapest and healthiest hog food possible to raise, and find that where brood sows have free access to artichokes they and their pigs invariably do well. Hogs will not only grow, but will fatten on them. Price: $\frac{1}{4}$ bu., 75c; bu., 50 lbs., \$2.50. Two bushels will plant an acre.

THE VEGETABLE ARTICHOKE

This is the vegetable that is creating such a great sensation in the eastern markets where it is in great demand.

The artichoke for table use, it makes a fine dish fit to set before the king. It grows for the market in a light green color. We will give recipes how to prepare them for the table and also how to plant and cultivate them, with each package sold.

Green Globe — This tasty vegetable which is gaining favor rapidly. It is a perennial which will persist for many years and continues to give a good crop

if grown on well-drained rich soil. It is cultivated for its flower-buds, which are cooked like Asparagus. Besides the meat which is attached to the base of each bud scale, the bottom of the bud has a delicate, pea-like flavor. Postpaid.

Pkt. 10¢; $\frac{1}{2}$ oz. 20¢; $\frac{1}{4}$ lb. \$1.25;

ASPARAGUS SEED

CONOVER'S COLLOSSAL—The standard variety; of large size, tender and of excellent quality.

PALMETTO—It is of very large size, even and regular in growth and appearance. It is a very early sort, and immensely productive and of the best quality.

COLUMBIAN MAMMOTH WHITE—A new and entirely distinct variety that produces shoots that are white, and remain white as long as fit for use.

GIANT ARGENTEUIL—Is a selection from imported French Argenteuil stock. An improvement upon the original. In the South it is regarded as distinctly superior to Palmeto.

Pkt. 5c—Oz. 10c— $\frac{1}{4}$ Lb. 20c—Lb. 65c—Post Paid

Mary and Martha Washington

A vigorous growing and very productive variety which has been bred to resist the disease known as "Asparagus Rust." The shoots are thick and heavy. They are long and straight, with closely folded tips. The color is rich dark green, tinted darker at the tips.

Pkt. 5c—Oz. 10c— $\frac{1}{4}$ Lb. 25c—Lb. 90c

ASPARAGUS ROOTS

Asparagus Roots can be supplied from November 1st to May 1st, but the best time for planting is in the early spring.

Per Doz. 20c; Per 100 75c; Per 1000 \$7.00
Post Paid

BEANS—Dwarf Wax Pod Varieties

Davis White Kidney Wax—52 Day

The long, straight pods, flat and stringy. A good shipper. Color bright yellow—seed white.

Pencil Pod Black Wax—52 Day

The best of the black seeded wax beans. Very productive. The pods are round, large, about 7 inches long, entirely stringless and of excellent quality. More disease resistant than most other sorts.

New Stringless Kidney Wax—53 Day

Considered one of the best. Pods about 6 inches long, straight, fleshy, stringless.

Improved Golden Wax—45 Day

Plants are small, compact, erect, and very prolific. Pods are borne well off the ground, which prevents rust and rot, are of golden yellow color, brittle, fleshy and solid with waxlike texture.

Wardwell's Kidney Wax—53 days

Particularly valuable for home and market garden. Plants large and thrifty. Pods attractive golden yellow; $5\frac{3}{4}$ to 6 inches long, $\frac{5}{8}$ inch wide, $\frac{3}{8}$ inch thick; fleshy, brittle, stringless, fine grained, and tender.

Prolific Black Wax—52 Days.

Good home and market garden sort. Plant small; heavily productive over long period. Pods golden yellow; $4\frac{1}{2}$ inches long, $\frac{3}{8}$ inch thick, round; fleshy, brittle, strictly stringless, fine grained and tender. Seeds black.

Prices on Beans—Pkt. 5c— $\frac{1}{2}$ Lb. 15c—Lb. 25c—2 Lbs. 45c—5 Lbs. \$1.00—Post Paid

Currie's Rust Proof Wax

50 days. Well adapted for shipping. Plant thrifty and productive.

Bountiful

One of the favorites with market growers. Early, a good shipper and bountiful yielder. Pods flat, stringless, thick and nearly straight.

Black Valentine

Pods about six inches long, slender, nearly round. Not stringless.

Burpee Stringless Green Pod

A favorite sort, entire stringless. The pods are about six inches long—round, thick, dark green and of good quality. Used extensively by canners.

Giant Stringless Green Pod

Pod about $6\frac{1}{2}$ inches long.

Refugee or 1000 to 1

Round Pod Refugee, and Improved Refugee. 70 days. Very popular canning and pickling sort. Plant large, hardy.

Red Valentine—52 Days

One of the most dependably productive for home and market garden. Pods medium green; $4\frac{1}{2}$ to 5 inches long.

POLE—GREEN POD

Burger's Green Pod Stringless

(Kentucky Wonder White Seeded) 63 days. The finest quality of any of the pole beans.

Kentucky Wonder (Old Homestead)

65 days. This most popular of all pole beans should be in every garden. The dark green pods are round and long, measuring 9 to 10 inches; they are always stringless as snaps, and never become tough.

Lazy Wife—74 Days

Excellent for snaps, green shell, and dry shell beans for home and market garden. Good climber, heavily productive. Pods medium green; 6 to $6\frac{1}{2}$ inches long.

BUTTER BEANS—DWARF

Dwarf Large White Lima (Burpee's)... 75 to 78 days. Standard large seeded bush lima.

FordHook Bush Lima (Potato Lima)

75 days. Plant large, erect, heavily productive. Pods 4 to $4\frac{1}{2}$ inches long.

Henderson's Bush (Baby Lima)

65 days. Very popular for canning and shell bean.

BEANS POLE LIMA

King of the Garden Lima

A standard mid-season sort. Pods about 5 inches long, four seeded.

BEETS

TABLE VARIETIES

Crosby's Egyptian (Original Strain)

50—55 days. Splendid home and market garden sort. Tops medium in size; collar small. Root flattened globe-shape, with small tap root; very dark purplish-red.

Detroit Dark Red—52-55 Days.

The standard of excellence in table beets for home and market garden, shipping and for canning. Tops uniform, small, slender, erect. Roots globe-shaped; very dark blood-red.

Early Wonder—50-55 Days.

Very desirable for home and market garden. Tops small. Root flattened globe-shape with small collar and tap root. Flesh deep-purplish red zoned a lighter shade.

Edmond's Early Blood Turnip

60 days. For home and market garden. Tops medium small but coarse. Roots deep turnip-shaped, almost globular; very dark red. Flesh deep purplish-red zoned with a lighter shade.

Extra Early Egyptian Blood Turnip

50 days. Best for forcing and particularly valuable for early market. Tops small and upright; roots flattened, with long slender tap roots; flesh dark purplish-red zoned lighter.

Early Eclipse—55 Days.

For home and market garden. Tops small, erect, slender. Roots globe-shaped; dark purplish-red.

(Many other varieties—same price)

SUGAR BEETS

Vilmarin

Skin white, tinged with rose.

Klein Wanzelbeu

Most popular sugar beet grown. Very high in sugar content. Clear white.

SWISS CHARD

Only the tops of this beet are used, like spinach, and the succulent stalks and midribs may be prepared in the same way as asparagus. The plants are cultivated like beets except that they should be thinned to 8 or 10 inches apart. If only the outer leaves

are gathered, the inner leaves will continue to grow, and repeated pickings can be made.

Large Ribbed White (Silver Leaf)

The leaves are broad, somewhat waved but smooth, and of a medium light yellowish-green. The stalks are broad and flattened, but tender and succulent.

Price per Pkt. 5c—Oz. 10c— $\frac{1}{4}$ Lb. 20c
Lb. 75c—Post Paid

STOCK FEEDING

Golden Tankard

Yellowish orange; not so long as Giant Long Red. Flesh yellow zoned with white. Grows well out of ground and may be harvested without plowing loose.

Giant Long Red

Attains very large size. Good crops yield 30 to 50 tons per acre. Roots grow more than half above the ground. Color light red, flesh white and rose pink.
Pkt. 5c—Oz. 10c— $\frac{1}{4}$ Lb. 15c—Lb. 50c

BROCCOLI

Packet 5c, oz. 20c
Post Paid

BORECOLE (OR KALE)

Pkt. 5c—Oz. 10c— $\frac{1}{4}$ Lb. 20c—Lb. 75c
Post Paid

BRUSSEL SPROUTS

Any variety.

Pkt. 5c—Oz. 15c— $\frac{1}{4}$ Lb. 40c—Lb. \$1.25
Post Paid

NOTE

Marion Market. Copenhagen Market. Golden Acre and Glory may be planted as a second crop or late cabbage.

CABBAGE SEED OF HIGHEST QUALITY

Our seeds are both imported and Long Island, (N. Y.), grown, and especially grown for the market gardener and general home.

St. Louis Late Market

The plant is very vigorous and hardy, the leaves are large and broad, the stem of moderate length, the head large, white, solid and seldom bursts.

Stein's Early Dwarf Flat Dutch

90 days. A variety, well suited for market garden culture, and being a good shipper is used very extensively by the produce growers.

All Seasons

85 days, if planted in spring; about 80 days when planted in July. Leaves and head are of fine clear green color. Head thick and broad.

Danish Round Head

Heads round, solid and of excellent quality. Stems very short. The plant is vigorous and compact. Leaves few but rather large, thick and smooth.

Surehead—110 Days

Similar to Late Flat Dutch. Rather long in stem, the head of average size, compact and regular.

Henderson's Early Summer — An old standard. Heads large and flattened.

Allhead Early — Deep, flat, solid head, uniform in size, shape and color. Very compact and may be planted closely.

Early Winningstadt—80 Days

Heads are much more pointed and usual-

ly smaller than the round and flat headed varieties, but they are solid, tender and of fine quality.

Jersey Wakefield

The old well known early pointed head sort which still is a favorite with many.

Pkt. 5c—Oz. 20c— $\frac{1}{4}$ Lb. 50c—Lb. \$1.50

Marion Market — This cabbage resembles Copenhagen Market, but matures about ten days later and makes a much larger plant. Its most distinguishing feature is its complete resistance to Cabbage Yellows and it is, therefore, valuable for land where "yellows-resistant" cabbage is needed. Yellows-resistant varieties of cabbage should be more generally grown—you will then be reasonably sure of a crop. The heads are almost round and very solid. It is a hardy, highly bred strain, grown extensively for kraut and long-distance shipping.

Copenhagen Market — Early, large, round-headed strain. Heads averaging 5 to 8 pounds in weight. The compact growth of the plant, the solidity of the head, its excellent flavor, and extreme earliness all combine to make it one of the most popular early cabbage.

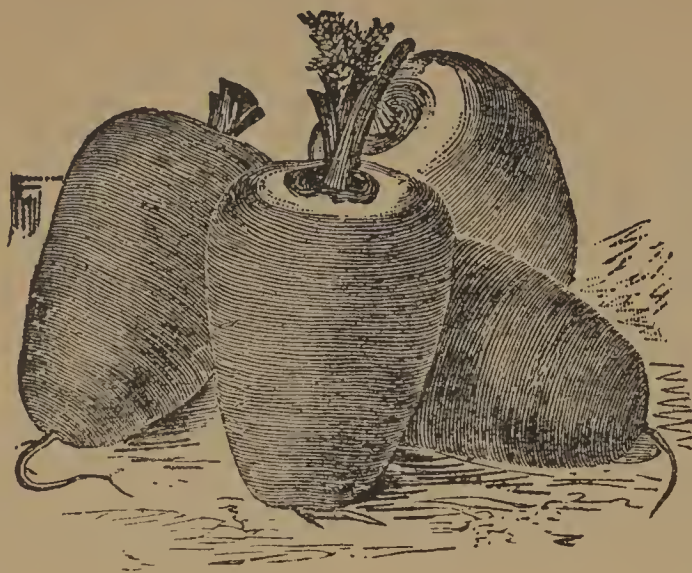

Enkhuizen Glory

This large, early white, solid sort is of excellent quality and particularly attractive for market. Very few outside leaves. About ten days later than the first early sorts. A sure header and a heavy yielder.

Golden Acre

An extra early selection from Copenhagen Market of special merit. A fine round headed early cabbage. A very profitable sort to grow. Practically every plant produces a solid, round head of excellent quality.

Pkt. 5c—Oz. 20c— $\frac{1}{4}$ Lb. 50c—Lb. \$1.75

CARROTS

Ox-Heart or Guerande

75 days to produce roots of good table size.

Red Cored Chantenay—70 Days.

This is a distinct improvement over the well known Chantenay, especially in color, texture, and quality of flesh. Roots 5½ to 6 inches long, 2¼ inches thick at the shoulder; tapered, stump-rooted; flesh and core reddish-orange, fine grained, and tender; of sweet, delicate flavor.

French Forcing (Earliest Short Horn)

60 days. Valuable for forcing and for outdoor culture for early market.

Chantenay Half Long

An excellent early sort. Roots about six inches long, smooth, deep orange color.

Nantes Coreless

This variety is used very extensively Half-long, early, 6 to 7 inches long, holding the same thickness to the tap root, where it tapers abruptly to a small tap root. Roots smooth, tender, bright orange. An excellent sort for home garden or market.

Danvers Half Long

A half-long orange carrot. The best known second early. Roots 6 to 8 inches long. Very productive and suited to almost any soil. Tender and of good quality.

Price per Pkt. 5c—Oz. 10c—¼ Lb. 30c

Lb. 75c—Post Paid

STOCK CARROTS

Improved Long Orange—85 Days.

A heavy cropper on light soils; much grown for stock. Roots scarlet-orange 10 to 12 inches long, 2 inches thick at the top.

Large Yellow Belgian

Grown only for stock feeding. Roots

20 inches long, broad and pointed, light orange below the surface, green above. White Belgian In Ground Late Heavily productive; grown for stock. Roots 8 to 10 inches long, 3 to 4 inches thick at the top.

Stock Carrots, Pkt. 5c—Oz. 10c—Lb. 60c
Post Paid

CAULIFLOWER

Danish Giant, Dry Weather, 65 days.

Early Snowball, Greenhouse forcing, 52 days.

Extra Early Dwarf Erfurt, for home, market, garden and shipping.

Pkt. 5¢; ¼ oz. 50¢; oz. \$1.25.

-----------------------	----	-----	--------

CHINESE CELERY-CABBAGE

Pe Tsai, about 65 days, when matured it resembles Cos Lettuce more than cabbage. Used in salads like celery or lettuce, or may be cooked like asparagus.

For spring planting it should be planted early.

Chillihi

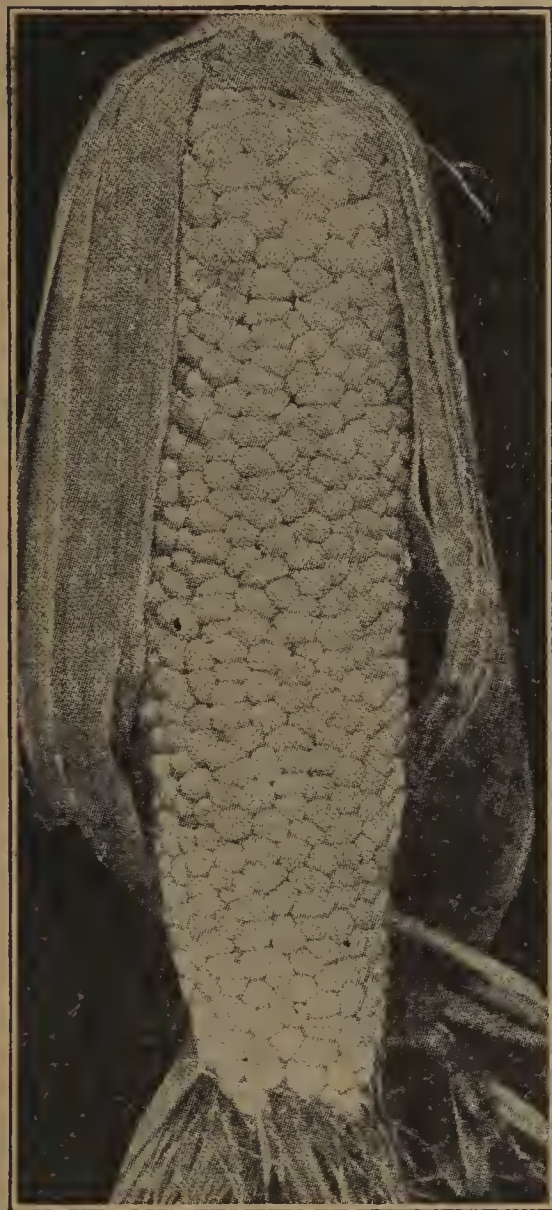

WONG BOK

The heads of this variety are short and heavy. It has beautifully curved leaves of fine quality and is a sure header.

Pkt. 5c—Oz. 15c
Lb. \$1.50

SWEET CORN OF SUPERIORITY

QUALITY TESTED AND TRUE TO NAME. OUR SWEET CORN IS GROWN IN KANSAS. WE ARE OFFERING ESPECIALLY FINE SEED THIS SEASON. SEND IN YOUR ORDER AT ONCE.

Country Gentleman (Shoe Peg)

A very fine variety. Ears large, kernels small but deep and without any row formation. It matures late.

Stowell's Evergreen

This is the standard main-crop variety, much used for the home garden and canning. The ears are about 7 to 8 inches long, 14 to 20-rowed, with very white grain. It is exceptionally tender and about 5 feet in height and bears two. sweet.

Howling Mob

This corn is of good size, but early and has the excellent flavor of the later varieties. The stalks are strong, vigorous, about 5 feet in height and bears two.

Price, Any Variety, Postpaid:
Pkt. 5c; $\frac{1}{4}$ lb. 10c; 1 lb. 25c; 2 lbs. 45c.

Lower Prices on Quantities

Kendel's Early Giant—8- to 9-inch ears with ten or more rows of plump kernels. 80 days.

Early Minnesota

A favorite early variety, which matures in about 70 days.

Early Evergreen

Similar to Stowell's Evergreen only about ten days earlier.

Golden Bantam

Rather early variety with golden yellow grain, very tender and sweet, with rich flavor. Matures early and is comparatively free from worms.

Golden Giant

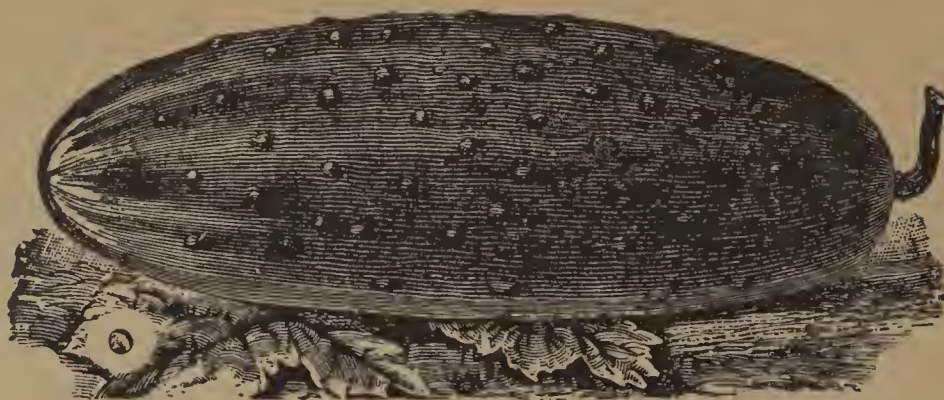

A cross of Golden Bantam and Howling Mob. This is the largest of the yellow sugar varieties, the ears measuring up to 8 inches long. Deep orange in color and extremely juicy and sweet.

Narrow Grain Evergreen

95 to 100 days. Very important canning variety with deep kernels intermediate in size between those of Stowell's Evergreen and Country Gentleman. Plants large. Ears $7\frac{1}{2}$ to 8 inches long with 16 to 24 compact rows of very deep white kernels.

Early Adams. Long Ears

Extra Early Adams—(52 days). Not a sweet corn, but is so hardy that a planting may be made before it is safe to plant the sweet varieties. Roasting ears may be had extremely early and are of

CUCUMBERS

Price, Any Variety, Postpaid:
Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 35c; 1 lb. \$1.00

Davis Perfect

68 days. Splendid dark green slicing variety particularly valuable for shipping. Fruits very dark green; retain color long after picking.

Early Fortune

66 days. One of the most desirable slicing sorts; extensively grown for shipping. Fruits very dark green.

Chicago Pickling (Westerfield)

60 days. Valuable pickling and slicing variety.

Early White Spine

60 days. The most popular white spined cucumber for the home garden.

Evergreen White Spine (Arlington)

66 days. Splendid for home garden, market garden and shipping.

Improved Long Green

The most popular and one of the best for the home garden; particularly desirable for slicing.

Klondike

Very desirable for shipping. Fruits handsome; very dark green; white spined; 7 to 8 inches long.

Early Cluster

56 days. Very fine for early slicers.

Early Short Green or Early Frame

56 days. Splendid for pickling or slicing

Boston Pickling

60 days. Splendid pickling and slicing sort. Fruits medium dark green.

Small Gherkin

A superior quality for pickles. A true West India gherkin, and not a true cucumber. Very prolific, matures for pickles in about 60 days, pale green, prickly over entire surface, become $1\frac{1}{2}$ to 2 in. long, oval, very uniform, seeds numerous.

Black Diamond

Splendid for shipping. Fruits rich dark green retaining their color long after picking. 10 inches long.

LETTUCE**GRAND RAPIDS**

As a forcing and shipping lettuce this undoubtedly stand at the head; beautiful in appearance.

HANSON IMPROVED

Always sure to make large, handsome heads of excellent quality; outer leaves green with light veins, inner leaves white.

BIG BOSTON

Desirable either for forcing in cold frames or open ground planting; always produces large, solid, salable heads.

DENVER MARKET

Early, for forcing or open ground; heads large and solid; leaves crisp and tender, blistered like a Savoy Cabbage; most attractive in appearance.

SIMPSON BLACK SEEDED

Nearly double the size of Early Cured Simpson; leaves delicate golden yellow; for forcing or out of doors.

SIMPSON EARLY CURLED

White Seed.

ICEBERG

New. Of beautiful appearance and excellent quality; leaves green; slightly tinged with red at the edge; heads good size.

MAY KING

New. Heads extra large and solid; green outside but heart clear yellow; very desirable.

PARIS WHITE COS

The Cos or Celery Lettuce is a very distinct type, having a tall, elongated head.

Pkt. 5c—Oz. 10c— $\frac{1}{4}$ Lb. 30c—Lb. \$1.00
Post Paid

**HALE'S BEST****MUSK MELONS—CANTALOUPE**

HALE'S BEST—An early melon, ripening in 75 to 80 days. The nearly round fruits are normally 6 to 6½ inches long, densely covered with medium heavy netting and almost devoid of ribbing. The flesh is very thick and fine grained, deep salmon-pink in color, and richly flavored.

Hearts of Gold

This popular medium sized melon follows the earlier varieties. It is fine to plant for succession as it ripens in about 100 days.

Honey Ball

105 days. **Splendid** for home, market garden, and shipping. Very productive. The fruit globular; 5 in. in diameter; yellowish white; smooth; sparsely netted. Flesh silvery green; juicy with sweet honey-like flavor.

Tip Top

Melons are round in form, well ribbed; light green skin; flesh is thick, bright salmon in color, of luscious melting character; firm for shipping purposes.

MUSK MELONS—CANTALOUPE—(Continued)**EXTRA EARLY HACKENSACK—**

Ripens ten days earlier than the Hackensack.

BURRELS GEM—Dark green with thin skin, flesh thick, salmon colored, evry delicious.

POLLOCK NO. 10-25—Salmon tint flesh, good shipper and early.

BANANA—A long salmon fleshed variety of good flavor, growing about fifteen inches long.

EMERALD GEM—Small, extra early; smooth ribbed, dark green skin and orange flesh; quality first rate, very sweet.

GOLDEN NETTED GEM—Very early; is small and of fine flavor; green flesh.

LATE HACKENSACK — Large round, and of good quality; a popular variety.

OSAGE—Cocoanut shaped, yellow flesh, light green, netted skin; good quality, intermediate.

HONEY DEW—Round, smooth skinned flesh, light emerald green. Very sweet sugary flavor. Good keeper.

ROCKY FORD—This is the most popular of the basket melons; oval, light ribbed, densely covered with coarse green netting, flesh thick, green and ,sweet, highly flavored.

GREEN NUTMEG — Named from its shape, green flesh, good for main crop.

PAUL ROSE — Unsurpassed in quality, unexcelled for shipping, flesh firm, rich orange color, covered with dense netting not ribbed.

**Red Globe**

Prizetaker (Same as Mammoth Yellow Spanish or Valencia)—The most widely grown of the Sweet Spanish class. Enormously productive, widely grown for shipping. Bulbs large, globular; skin thin, glossy and of a lighter shade of yellow than Ohio and Southport Yellow Globes.

Pkt. 5c; oz. 20c; $\frac{1}{4}$ lb. 60c; lb. \$2.00

Southport Red Globe—Standard late variety used in large quantities in some markets; splendid keeper. Bulbs large; globe-shaped; skin thick, very deep purplish-red; flesh white with faint tinge of pink.

Southport White Globe—Standard variety of highest quality. Bulbs medium large; globular; firm; skin clear white; flesh clear white and fairly mild.

Southport Yellow Globe—Standard late variety of splendid keeping quality. Bulbs large; globular; skin deep orange-yellow; flesh fine grained.

Yellow Globe Danvers—Very popular and somewhat earlier than Ohio and Southport Yellow Globes. Bulbs medium large globe-shaped, pure yellow, flesh white.

Sweet Spanish—The best of the very large mild varieties, and while one of the original Spanish types, is a better keeper, having been selected for keeping qualities. It is deep amber-orange in color, with a small neck, and is globular.

White Globe**Yellow Globe**

Pkt. 5c; oz. 20c; $\frac{1}{4}$ lb 70c; lb \$2.50

White Portugal—(American Silverskin) Most widely used white onion sets, pickling onions, mature bulbs and for bunching onions from seed. Bulbs of medium size; flat but fairly deep; pure white; flesh fine grained, firm and hard. A splendid keeper.

Extra Early Red, .Flat—Very early. Standard for very early market use.

Red Wethersfield

Standard late variety of splendid keeping quality. Bulbs large; flat but rather deep; skin deep purplish-red; flesh white and faint pink flush.

Extra Early Barletta Extremely early. Largely grown for pickling.

Mammoth Silver King

Very early white market onion. Bulbs large; flat but deep; clear white; flesh

White Queen

Early market and pickling sort. Bulbs medium small; pure white; flat; mild

White Brmuda

They are called white, but really are of a pale yellow color, are of very large size, and have an extremely mild, pleasant flavor.

Crystal White Wax

Pure white, early, extremely mild and sweet.

Pkt. 5c—Oz. 20c— $\frac{1}{4}$ Lb. 75c Lb. \$2.50

OKRA OR GUMBO

The young seed pods of this Southern plant are used for the well known and delicious "Gumbo" soups, alone or with chicken.

• WHITE VELVET

Produces pods larger than any other.

LITTLE MARVEL—Fast becoming the most popular of dwarf sorts for the home garden.

FIRST AND BEST—An extra early smooth variety of fair quality; 6 to 8 peas to the pod.

ALASKA — One of the very earliest blue peas; quite productive, often called Early June.

LITTLE GEM—McLean's very desirable early pea, heavy yielder of good quality.
LAXTONIAN—One of the best dwarf wrinkled peas for the market gardener. Pods about 4 inches long, resembling those of Gradus, but ripening a little earlier.

AMERICAN WONDER—Nearly as early as Alaska, a good yielder, quality of the best.

GRADUS—One of the Largest Early Varieties, Height 18 inches.

THOS LAXTON—Height 30 inches. The only rival to the famous Gradus, as a long-podded, extreme early wrinkled pea.

NOTT'S EXCELSIOR—Height 20 inches The finest Dwarf Wrinkled Extra Early Variety—It is the best of recent introductions.

POTLATCH OR IMPROVED STRATGEM—A large podded wrinkled pea of fine quality. Vigorous and productive vines about 30 inches high. Six to seven peas to pod.

EVERBEARING—Long pods and large peas; sow thin. Height, 2 $\frac{1}{2}$ feet.

TELEPHONE—Very valuable, vigorous grower, pods large, sweet. Height 4 ft.

CHAMPION OF ENGLAND

Tall, strong vine, round blunt, dark green pods, very rich, fine flavor.

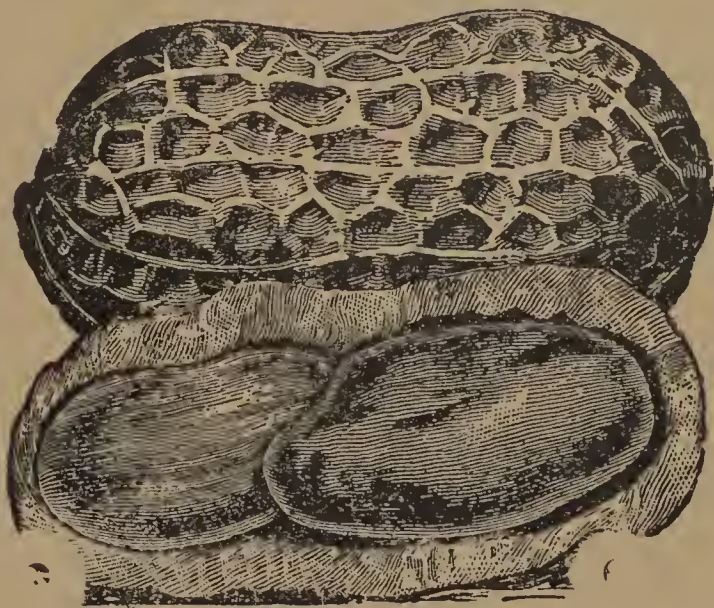

LARGE WHITE MARROWFAT—Late very tall, dark green vine, medium large round pod; white smooth peas. Good producer.

TALL MELTING SUGAR EDIBLE

PODS—A true sugar pea, large, broad, stringless pods; vines medium tall.

Lb. 25c—2 lbs. 40c—3 Lbs. 50c

PEPPERS

RUBY KING

Ruby King

Fruits about the same size as Ruby Giant, but more tapering. Plants early, productive.

Pkt. 5c—Oz. 25c— $\frac{1}{4}$ Lb. 75c—Lb. \$ 2.50

Long Red Cayenne

(Hot.) 70 days. A leading sort for use in pickles, for canning and for drying. Plants large, very prolific.

Pkt. 5c—Oz. 25c— $\frac{1}{4}$ Lb. 75c—Lb. \$3.00

Pimiento

(Sweet. The same as perfection.) 72 days. Standard variety for home and market garden, grown on large scale for canning whole. Plants large, upright, heavily productive. Fruits very smooth, regular heartshaped, commonly about 3 in. long (easily cored for canning); deep green, becoming deep red; flesh very thick, sweet and of splendid flavor.

Pkt. 5c—Oz. 30c— $\frac{1}{4}$ Lb. 75c—Lb. \$3.00

World Beater

A very large, thick walled pepper of excellent quality and a fine shipper. A cross between Chinese Giant and Ruby King. Often grows to four inches in diameter and 5 to 6 inches long. A favorite with Southern planters. Flesh thick and mild. Very productive.

Pkt. 5c—Oz. 25c— $\frac{1}{4}$ Lb. 75c—Lb. \$3.00

Anaheim

Particularly adapted to culture in the South. Is grown on a commercial scale for drying and canning. Fruits late, 6-8 in. long, about 1 inch diameter and tapered. Deep green becoming rich scarlet when matured. Mildly pungent.

Pkt. 5c—Oz. 25c— $\frac{1}{4}$ Lb. 75c—Lb. \$2.75

Bell or Bull Nose

A standard early variety, popular for pickling; fruits, pendant, scarlet, two in. in diameter, three inches long, mild.

Pkt. 5c—Oz. 25c— $\frac{1}{4}$ Lb. 75c—Lb. \$2.50

California Wonder

A new very valuable addition to the pepper list. It resembles Chinese Giant in large size and blocky form of fruit. It has very thick walls, the flesh often being three-eighths of an inch thick, deliciously crisp, tender and sweet. Color a brilliant dark green changing to crimson when ripe. Fruits four-lobed, upright, $4\frac{1}{2}$ inches long, 4 inches in diameter, rather late.

Pkt. 5c—Oz. 40c— $\frac{1}{4}$ Lb. \$1.00—Lb. \$3.75

Sweet Spanish

80 days. Popular for home and market garden. Plants large, upright, heavily productive. Fruits 6-7 in. long, $2\frac{1}{4}$ in. through; very slightly tapered; dark green becoming rich red; sweet throughout.

Pkt. 5c—Oz. 25c— $\frac{1}{4}$ Lb. 75c—Lb. \$3.00

Harris Early Giant

Earliest and most prolific of the large peppers. Plant of compact growth often yielding twelve to fourteen large, pendant fruits on a single plant. Mild, sweet, scarlet when ripe. Valued as an early green pepper by the market grower and excellent for the home garden.

Pkt. 5c—Oz. 25c— $\frac{1}{4}$ Lb. 75c—Lb. \$3.00

Chinese Giant

One of the largest of the mild, red varieties, plant of short stocky growth, light green foliage, fruits pendant, thick, blocky and square ended, 4 to 5 inches in diameter and equal length. Color, a brilliant, glossy scarlet.

Pkt. 5c—Oz. 40c— $\frac{1}{4}$ Lb. \$1.00—Lb. \$3.75

Red Chili

Used in the manufacture of pepper sauce. Pkt. 5c; oz. 40c; $\frac{1}{4}$ lb., \$1.25 lb., \$4.50.

Red Cluster

A new type of Chili, with upright, bright red fruits. Pkt., 5c; oz., 40c $\frac{1}{4}$ lb. \$1.25; lb. \$4.50

Celestial

A Chinese variety bearing roundish upright pods. Pkt., 5c; oz., 40c; $\frac{1}{4}$ lb., \$1.25; lb., \$4.00

PUMPKINS

KENTUCKY FIELD

Small Sugar or New England Pie

This is the small sweet pumpkin that has made New England famous for her pumpkin pies. The flesh is very fine grained, most deliciously sweet and fine flavored, a splendid keeper. The fruits are deep orange, 8 to 10 inches in diameter, somewhat flattened and slightly ribbed. Flesh fine grained, deep orange yellow color.

King of Mammoth

This is the largest pumpkin, often growing to weigh 75 to 100 pounds. The quality is excellent, makes very fine pies. Yields a heavy tonnage per acre, fine for feeding stock. Fruits round, flattened and slightly ribbed, skin salmon-orange colored, deep yellow and very thick.

THANKSGIVING PIE PUMPKINS

The finest and sweetest of all the pumpkins I have been offering this variety for several years and have not found one to equal it.

Connecticut Field

Fruits rather long, flattened at the ends, 12 to 15 inches in diameter, skin ribbed, smooth, hard reddish orange. Flesh rich orange yellow.

PRICES

Pkt. 5c; Oz. 10c; 1/4 lb. 20c; Lb. 50c

Large Sweet Cheese or Kentucky Field—Creamy yellow, well known, one of the standard sorts most used by canners.

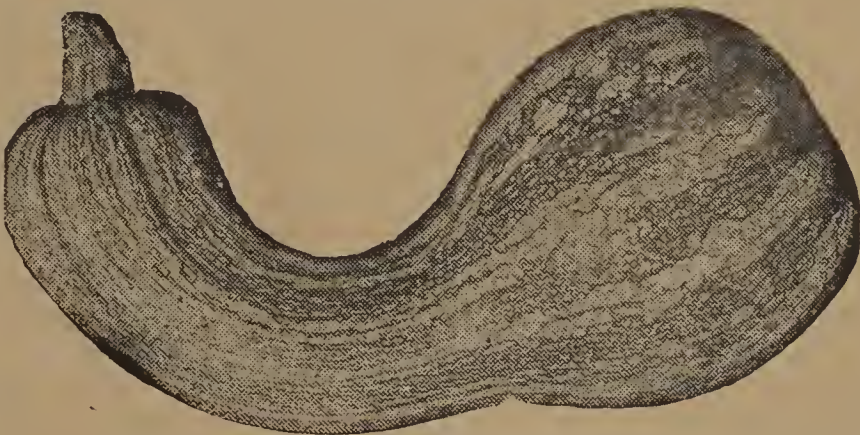

CASHAW—Color light green with darker green stripes. Large solid neck, flesh light yellow well known and a favorite sort.

CASHAW—White crookneck. Same as above only White.

Japanese Pie

Dark slate colored with slightly lighter green mottled stripes. Neck large and solid. Meat deep orange red, quality excellent. A heavy yielder. Good keeper and excellent either for pies or baked.

CASHAW

TOMATOES

Our Seed is grown in Delaware and New Jersey. The seed we offer you is grown with great care and as free from blight and rust as is possible to produce. You will be well pleased with results from our seeds.

PONDEROSA—Massive size, good form smooth, solid, almost seedless, a delicious flavor.

GOLDEN QUEEN—83 days. The best large yellow fruited tomato. Fruits large; deep but flattened; bright golden yellow; firm, smooth and attractive.

Pkt. 5c—Oz. 30c— $\frac{1}{4}$ Lb. \$1.00—Lb. \$3.75

GREATER BALTIMORE—83 days. Similar to Stone and particularly valuable for canning. Havily productive. Fruits deep scarlet-red.

Pkt. 5c—Oz. 20c— $\frac{1}{4}$ Lb. 50c—Lb. \$1.75

JUNE PINK—

An earliest, pink-fruited variety. It is sometimes referred to as 'Pink Earliana' because of similarity of types. Fruit are of medium size.

BREAK O' DAY—73-75 days. We offer a superior selection of this early wilt resistant, globe-shaped shipping sort.

Plants heavily productive. Fruits large, scarlet; flesh firm and of good quality. Pkt. 5c—Oz. 20c— $\frac{1}{4}$ Lb. \$1.00—Lb. \$3.75

MARGLOBE—75-78 days. We offer the most superb strain of this splendid type on point of earliness, uniformity, and general desirability. particularly valuable for shipping.

Pkt. 5c—Oz. 20c— $\frac{1}{4}$ Lb. 75c—Lb. \$3.00

PRITCHARD OR SCARLET TOPPER (90 days). The Pritchard, the best of early red tomatoes, has all the good features of the Marglobe and is 2 weeks earlier. Very attractive bright red color, solid flesh.

Pkt. 5c—Oz. 20c— $\frac{1}{4}$ Lb. 75c—Lb. \$3.00

EARLIANA—64-66 days. Particularly valuable for home garden and early market. Our strain is definitely superior in earliness and quality. Fruits medium size; flattened globe-shape; deep scarlet-red; firm and smooth.

Pkt. 5c—Oz. 20c— $\frac{1}{4}$ Lb. 50c—Lb. \$2.00

GOLDEN QUEEN — Description on Page 21

KANSAS STANDARD TREE TOMATO

This is one of the earliest sorts, a heavy cropper and a fine shipper. Fruit is a bright red, sets in clusters.

Pkt. 5c; oz. 30c; $\frac{1}{4}$ lb. \$1.; lb. \$3.75

BONNY BEST—73 days Unexcelled as a general purpose tomato; particularly valuable for forcing under glass and as a canning variety in northern sections. Fruits handsome; evenly colored bright deep scarlet red, medium large, flattened globe shape; smooth and firm.

Pkt. 5c—Oz. 20c— $\frac{1}{4}$ Lb. 50c—Lb. \$1.75

DWARF STONE—The fruits are produced in clusters of three to five, and, as the growth is close-jointed, each plant produces a large number.

Pkt. 5c—Oz. 30c— $\frac{1}{4}$ Lb. \$1.00—Lb. \$3.75

OXHEART—This is about the largest tomato grown. It has the same color as Ponderosa but is much smoother, and heart shaped — a single tomato often weighing a pound or more. Very solid with but few seeds.

pkt. 10c; oz. 40c

For Preserves, Pickles, and Decorations

Red Cherry—Fruits small round, rich deep red.

Yellow Pear—Fruits 2 inches long. Pear formed.

Red Pear—Fruits 2 inches long; pear formed.

Yellow Plum—Fruits oval, 2 inches long; clear deep yellow.

Pkt. 5c; Oz. 30c; $\frac{1}{4}$ Lb. \$1.00

Yellow Husk or Ground Cherry—Not a true tomato. Fruits borne singly; small round; enclosed in papery envelope, of rich sweet flavor.

Pkt. 5c—Oz. 30c— $\frac{1}{4}$ Lb. \$1.00—Lb. \$3.75

MANY OTHER VARIETIES—Just Ask for what you want.

BEAUTY — (Livingston) Very large smooth, pinkish red, thick flesh, regular form.

STONE—(Livingston)—Very large, perfectly smooth, fine bright scarlet; best main crop.

MATCHLESS—(115 days). A main crop, scarlet-fruited variety, similar to Stone. Fruits are medium to large in size, smooth and solid. Vine makes a quite heavy growth.

RED ROCK—A main crop market and canning tomato, similar to Stone; thought by some to have better color.

Pkt. 5c—Oz. 20c— $\frac{1}{4}$ Lb. 50c—Lb. \$1.75

REDHEAD—(110 days.) A second-early, scarlet-fruited variety. It is similar to Halk's Early Jewel. The fruit is a full medium sized Tomato and it sets in clusters of from 3 to 5. They have 4 to 5 seed cells, and broken formation is usual. The vines are open and of medium size.

JOHN BAER—71 days. Particularly valuable for canning in Northern States. Very similar in every respect to Bonny Best; but often a few days earlier. Fruits handsome bright deep scarlet red.

Pkt. 5c—Oz. 20c— $\frac{1}{4}$ lb. 50c—Lb. \$2.00

HAYES EARLY KANSAS - WATERMELON -

**The World's Earliest
And Largest Melon
Grown!**

This sensational new melon, originated by me, will be planted this year by more growers than any other variety. It was the greatest moneymaker of them all in 1936.

Hayes Early Kansas has all the good qualities that go to make a really desirable melon, including sweetness, texture, size, quick maturity and shipping qualities.

—PRICES—

Pkt. 5c; 1 oz. 10c; $\frac{1}{4}$ lb. 35c;
 $\frac{1}{2}$ lb. 60c; 1 lb. \$1.00 post paid.

This picture was taken Sept. 5th. The weight on this scale was 54 lbs. We had many other melons much larger.

THESE GROWERS LIKE THE EARLY KANSAS

I was well pleased with Early Kansas melon, ripe melons 10 days earlier, strong vines, prolific bearer, best eating quality, and uniform size. Will plant them next season. A. C., Kansas.

Your Early Kansas melon suit the buyer and public, gets ripe 10 days or more ahead of other kinds, very strong vines, prolific and uniform, average about 30 lbs., dark red meat and sweet, it is the best melon that a producer can grow. Yes sir, will plant it next season. H. S., Kansas.

I used the Early Kansas seed you sent me late in spring, planted 3 or 4 acres, shipped one car, sold otherwise more than a car and left in field over ripe equal as many. I handled three cars Early Kansas and had good results with all. Signed, S. T., Ga.

I like your Early Kansas for earliness and uniform size best of any melon I ever grew, and most prolific ever tried, ripens 10 days or more ahead of any other melon in this locality, strong vines and out sell everything, not too large, just right and all grow nearly same size and the best I ever ate, trucked to market 200 miles ok, no broke melons, depending on you for seed next season. Signed, R. P., Indiana.

Your Early Kansas produced the best eating melons I ever saw, not one cut with hard center, all red. Signed, S. B., Mo.

Early Kansas Water Melon

EARLY KANSAS WATER-MELONS

Our further experiments throughout the country where this new melon was planted has demonstrated the fact that it is the Largest Early Melon Grown, and Matures Melons about 30 days earlier than most sorts. We find it does not shed the first setting as most melons do, and matures melons right along till frost. Our crop at Topeka began bearing melons on July 2nd. Melons weigh from 30 to 75 lbs. Our reports from Florida and from a hundred acres of various varieties planted for seed purposes show the Early Kansas was far ahead of all standard varieties in Producing a Melon of the finest texture, sweetest flavor, with rich bright red colored flesh.

This Melon is nearly round, light green in color with a deep dark broad stripe weighing from 30 to 75 pounds or more with glossy buff colored seeds which are few in each melon averaging about four ounces to the melon. The rind is about half inch thick.

The very handsome appearance of this melon which is borne on very heavy vines with large heavy tap roots make it a sure melon to grow. It is a wonderful shipper.

We have only a limited amount of seed to offer so don't delay your order.
